

Summary

Aspiring backend/AI engineer with hands-on project experience across PHP, Python, and React.js. Built full-stack applications including a Student Management System (React.js, FastAPI, PostgreSQL) and an AI chatbot using the Groq API. Comfortable with REST API integration, CRUD operations, and both SQL (PostgreSQL) and MySQL databases. Eager to apply and grow these skills in a production environment, with a strong interest in practical AI/LLM integration.

Education

MCA P. R. Pote Patil College of Engineering and Management, Amravati 	08/2025 – Present Amravati
BCA Smt. Radhadevi Goenka College for Women, Akola  72.08%	06/2022 – 05/2025 Akola
HSC Shri Sant Tukaram Maharaj Jr College Kinkhed(Purna) 54.67%	2020 – 2022 Akola
SSC Shri Sakharam Maharaj Vidhalay Keliveli 78.80%	2020 Akola

Skills

Programming Languages — Python | JavaScript | PHP | java
Frontend — HTML | CSS | JavaScript | React
Backend — FastAPI | PHP | Node.js | Express.js
Database — PostgreSQL | MySQL | MongoDB
Frameworks & Libraries — React.js | FastAPI | Streamlit
Tools — Git | GitHub | VS Code | Postman

Projects

Student Management System  Tech Stack: React.js, FastAPI, PostgreSQL (Neon), Vercel, Render - Developed a full-stack Student Management System using React.js for the frontend and FastAPI for the backend. - Implemented CRUD operations to add, update, delete, and manage student records. - Integrated PostgreSQL (Neon) as the cloud database for secure data storage. - Deployed the frontend on Vercel and the backend on Render. - Designed a responsive and user-friendly interface with REST API integration.	
AI Chatbot  Tech Stack: Python, Streamlit, Groq API - Built an AI chatbot capable of answering user queries using the Groq API. - Developed a simple and responsive Streamlit interface. - Integrated conversational AI for interactive user experience.	
Weather App  Tech Stack :Python , Streamlit , OpenWeather API - Developed a weather application to display real-time weather information. - Shows temperature, humidity, wind speed, and weather conditions. - Designed a simple and responsive interface.	
PyLearn Learning Platform for Python Programming  Technologies: PHP, MySQL, HTML, CSS, JavaScript - Developed a responsive web application for learning Python. - Designed user authentication and course management modules. - Integrated MySQL database for storing user and course information. - Built a clean and responsive UI using HTML, CSS, JavaScript, and Bootstrap.	01/2026 – 05/2026
Blood Centre Management System  Technologies: PHP, MySQL, HTML, CSS, JavaScript - Developed a database-driven web application using PHP and MySQL. - Implemented CRUD operations for donor and blood inventory management. - Designed responsive user interfaces.	02/2025 – 05/2025
